HYACINTH BULBS

Top-Size, Top-Quality Bulbs—True to Name and Color—the Cream of the Crops of Holland's Leading Bulb Growers

Most dependable source of color and fragrance in the garden, and indoors where they are easily forced into bloom during the winter. No other bulb is more easily grown. Plant out-of-doors in clumps of three, six or twelve. Set 8 inches apart and cover with 4 inches of soil. Don't mix fertilizer with the soil. Spread it on top after you have the bulbs covered.

Here are the six varieties of Hyacinths we import from Holland. They are considered the best of their color.

DELPH BLUE. An improved dark blue, erect and perfectly shaped spike.

CITY OF HAARLEM. Large spike of clear yellow bells.

LA VICTOIRE. Glistening deep carmine-red. Easily grown indoors.

L'INNOCENCE. Large, pure white flowers. Easily grown indoors.

MYOSOTIS. Large spikes of sweet scented, Forget-me-not-blue flowers.

QUEEN OF THE PINKS. A fine variety. Color is lovely rose-pink; broad, large trusses of good sized bells on strong stems. Fine for bedding and late forcing.

These Hyacinth bulbs come to us in two sizes. The largest, called by our growers in Holland "Exhibition Size," 19 centimeters or more in circumference, are the best for forcing indoors, also for show gardens when particularly large blooms are wanted for display. Our most popular size for the garden, 16 to 17 centimeters, is offered in the same varieties shown above. Hyacinths are easily grown indoors during the winter.
